The Deputy Prime Minister & The Minister of Public Health
Mr. Ghassan Hasbani

The Order of Physiotherapists in Lebanon *Organizes*
**The 4th International Scientific Days of
the National Institute of Physiotherapy - INP**

Hidden Approaches in Physical Therapy

September 16 - 17, 2017
Beit Al Tabib, Beirut - Lebanon

Welcome Letter

Dear Colleagues,

On behalf of the Order of Physiotherapists in Lebanon, I would like to take this opportunity to announce The 4th International Day of the National Institute of Physiotherapy - INP that will be held in the Lebanese Order of Physicians on September 16-17, 2017.

Personally, I do believe that arming yourself by SCIENCE is the best way to overcome all humanity threats.

Science stands for dignity, professionalism, communication and much love.

Like any other field, Physiotherapy strives to be one of a kind by assuming its responsibilities to perfection all the way towards the joyful face of medication & therapy.

A truly outstanding exhibit will run concurrent to the conference and will inevitably provide an excellent forum for networking with participants. State of the art medical equipment and medications will be exhibited shedding more light on the newest treatment methods to all participants.

Your contribution to educational and scientific activities is highly observed, and your participation in this upcoming meeting will be greatly appreciated and acknowledged.

We also assure you that our organizers will spare no effort in meeting your expectations and that of our participants.

We are confident that you will give this matter careful consideration and thank you in advance for your support.

Sincerely,

Tony Abboud D.P.T.
President of the Order of Physiotherapists
